COFFEE / HOT CHOCOLATE / MATCHA / TEA

We source our coffee beans from Coffee Lab, an independent roaster based in Hertford. We love their No.29 Blend. It's a delicious and versatile all-rounder with a perfect balance of acidity and sweetness. It's equally great in espresso-based drinks and in home-brewed coffee.

No.29 Blend includes Brazilian, Colombian and Ethiopian beans to create a smooth, sweet, melt in the mouth flavour.
